

About Us

Our Purpose

Beyond the Classroom provides tutoring services that support and develop your whole child.

Our Values

1 We are child-centred. We provide a positive learning experience for your child. This means meeting your child where they're at, cultivating a strong relationship with them, understanding their personal learning style, and actively working to build their confidence while they learn.

We start with an "interest inventory" to get to know your child and work their passions into their lessons; we have tutors with backgrounds in special education; we customize learning according to what your child needs; we communicate with families using empathy, understanding and care.

2 We respect family life. We offer flexibility with scheduling, payment options, session content and tutoring locations to work with your family's schedule; adapted to fit real life. We offer a variety of payment options; we don't ask you to sign a contract because we want your child to have a tutor only for as long as they need one; our tutors will help them catch up with their classes,

prepare for upcoming tests, and assist with homework and assignments. We will teach them new skills and concepts that incorporate the Ontario Ministry of Education Curriculum expectations.

3 We know connection is crucial. The positive connection between the tutor and your child is as important as the learning that happens during tutoring sessions; this connection is strongest when tutors work one-on-one.

Just a quick note to say thank you for taking the time to find a perfect match for Jess with her tutor. She is fantastic and Jess really enjoys the time she spends with her.
